

Mixers Solve the Icing Problem!

Preventing ice formation in water tanks is essential to avoid structural damage and failures, particularly in colder climates. Clearwater1's mixers maintain uniform water temperatures to prevent freezing, while also enhancing water quality by reducing stratification and minimizing harmful disinfection byproducts like trihalomethanes (THMs). Customizable for various tank types, including solar-powered options for remote locations, these systems improve efficiency and regulatory compliance, offering long-term cost savings. Energenecs is installing a mixer in Oak Creek, Milwaukee County. Read more at energenecs.com/mixer

Meet Sonny Amelse, Field Tech

Sonny joined Energenecs as a field technician last January, bringing experience from his previous role as a systems technician in Wisconsin, where he specialized in electrical maintenance, PLC, and HMI programming. At Energenecs, he works on projects that include installing and programming SCADA systems for water control systems. His role often involves balancing travel and remote work, troubleshooting, and collaborating with other technicians when needed. Outside of work, Sonny enjoys a variety of hobbies, including reading & movies, outdoors, and driving his 1949 Chrysler. Read more about Sonny at [energenecs/amelse](https://energenecs.com/amelse)

Multi-Rake Bar Screen RakeMax CF at WWOA

The Energenecs team connected with Huber Technology at the WWOA show this fall, showcasing the cutting-edge Multi-Rake Bar Screen RakeMax CF with a Center Flow Screen. Known for its efficiency and adaptability, the RakeMax CF features a U-shaped bar rack for high hydraulic throughput, a compact vertical design, and maintenance-friendly components with no submerged moving parts. Energenecs supplies the RakeMax across Wisconsin and the UP. Read more at [energenecs/rakemax](https://energenecs.com/rakemax)

Holy Halloween!

This Halloween, the team at Energenecs transformed the office into a haunted haven for their annual chili dump! Spirits were high as everyone joined the festivities in costume, including Bob the Builder, Wreck-It Ralph, The Minions crew, a Peapod, a Sorceress, and even Father Timothy. Each team member brought their favorite chili recipe and dumped it all into one cauldron—a devilishly delicious blend that everyone enjoyed! See the photos at [energenecs/halloween-2024](https://energenecs.com/halloween-2024)

Meet Tim Reed

Inside Sales Rep

Tim joined Energenecs as an inside sales representative, bringing over 30 years of experience as a manufacturer's rep and account manager. From the start, Tim was impressed with the pride and dedication he observed in the Energenecs team. Reflecting on his time at Energenecs, Tim shares:

“Since joining Energenecs, I've found the work environment to be very enjoyable and fulfilling. The company has a great culture. We have a lot of fun at work, which makes a huge difference, and I've come to really appreciate the work-life balance I now have. It's something that's very important to me and my family, and I'm grateful to be part of such an upbeat and supportive team. Overall, my experience at Energenecs has been great, and I'm enjoying the work and the people I get to work with every day.”

In addition to his professional achievements, Tim is a passionate photographer who has captured a diverse range of subjects. His true passion lies in sports photography, where his talent shines. Read more about Tim at [energenecs/reed](https://energenecs.com/reed)
